Hello sage,

Do you have electric rice cooker? If you have one, you can make soft coiled egg at a toggle ^^!!

For example, with my ancient âƒŠâ•œÉ»»é•‹, simply put a wet paper towel at the bottom and an egg (or two, whatsoever number you desire) on top of it, press the switch, if I didn't forget to plug it in, when the switch pop up, the egg is done !!!

Have a nice day !
