Heyy, the Flying Dutchman is back!...

Last year I talked a lot of nettle tea. All in all nettle is something fantastic, as I said that time: before or later someone will discover it for making refreshing drinks...

Have I told you? I can't run for two months... I got a kind of "-itis", a pain righth under my left knee... After some kilometers it gets extremely painful, and for days I can't walk... I'll make a test next week, hopefully I got recovered...

This last plant must be useful, it may causes delirium... I should have a try...

Hmm ... nettle tea ...

Dashushu, was Easter Time really so harmful?

Okay, after doing some serious research work ...

Now I understand ...

Restraint can be important in life ... at least sometimes!
