Dudes, take it easy, will you? The joke is funny to me.

The joke reveals that some people would just fool themselves and consequently destroy their own happy lives just because of something illusionary. Sexual encounter with a kitchen appliance? Haha, that's ridiculous. The doctor already explained well to the husband that nothing had happened like he thought, but the husband was stubborn enough to retain his own prejudiced belief that ended up leading to a tragedy.

If you guys want to look at the joke again, here is the link:

OpenH2O Neo, no worries. The whole ill credit, if any, goes to me from now on, ok?
