There is no immediate translation in English for this term because of no such title in the western society or educational system. However, we can invent a term for it and gradually spread it out to the westerners.

How about :

upper alumna (upper alumna), lower alumna (lower alumna)

upper alumnus (upper alumnus), lower alumnus (lower alumnus)

upper schoolmate (upper schoolmate), lower schoolmate (lower schoolmate)

"senior/junior" can also be used instead.
