Hopeâ€!â€!â€!

What is hope?

Where does it come from?

What can it bring?

Hope is an interesting word

It is an interesting feeling

Within

Hope is like a rainbow

That comes to us after a cool morning rain

Hope is the sunshine that follows the rain

Hope is the rising sun in the morning

That brings us warmth and light and hope to our souls

Hope is the light that guides our way through life

And shines the way to our happiness and takes away all fears

Hope is the dreams in our minds and hearts

Hope is the desire never to give up

Hope is what makes us go on when all may feel lost

Never give up hope

Always have faith that hope will bring

Health

Happiness

Peace of mind

And Love to a wondering heart.

Hope is more then you will ever know

Hope is pure

For us to see what is right from wrong

To see good from bad

To let us see what others canâ€™t see

Hope is having true and loving friends

Hope is what the future can bring

Hope is learning new things everyday

And hoping not to make the mistakes of yesterday

Hope is the beauty and wonder that we can all hope for.

EastCoast

I would ask that all that read this little poem understand that you should never give up easily and that you have hope and fight for your dreams, desires, and goals that are within your heart and soul.
Never give up on hope
