TO bukAir: Indeed! Tomato Sauce 454 could not 'ketchup' with the field. Excellent attempt!

TO Futari: It is certainly what the glossary shows. It is also a situation where a particular horse is third in position but trapped by other horses in the field. More often than not, a trapped horse is closer to the fence. I should have elaborated. That makes me a rotten commentator. haha!

However, having said this, I have never in my life heard a racehorse commentator in his commentary saying "box seat 2nd" or "box seat 4th".
