We know there are many different types of faces,like round,big,small..and so on.

I have a round and big face. So When I go to have my hair cut,the hairdresser often says that I cant have a short cut due to my round,big face. I insisted on it once and told them how about trying to cut a short hair for me? Then the hairdresser did what I told . You may think if I regretted after having my hair cut short? I dont,and in fact I felt happy because it looked not too bad on me and was easier to clean .But now I have a long hair.
