There are about 500 •K• words in a modern English dictionary. Take your pick.

My first word is KISS. Here's a song about KISS.

KISS ME QUICK

(Elvis Presley)

Hmm! Kiss Me Quick while we still have this feeling
Hold me close and never let me go
Tell me that tonight will last forever
Say that you will leave me never
Kiss Me Quick because I love you so

Let the band keep playing
While we are swaying
Let's keep on praying
Never never stop

Hmm! Kiss Me Quick I just can't stand this waiting
Cause your lips, are lips I long to know
For that kiss will open heaven's door
And we'll stay there for ever more
So Kiss Me Quick because I love you so.

Let the band keep playing
While we are swaying
Let's keep on praying
Never never stop
