Hello jester:

Welcome here.

Have you fooled on April 1?

April 1 In sixteenth-century France, the start of the new year was observed on April first. It was celebrated in much the same way as it is today with parties and dancing into the late hours of the night. Then in 1562, Pope Gregory introduced a new calendar for the Christian world, and the new year fell on January first. There were some people, however, who hadn't heard or didn't believe the change in the date, so they continued to celebrate New Year's Day on April first. Others played tricks on them and called them April fools. In France today, April first is called Poisson d'Avril. French children fool their friends by taping a paper fish to their friends' backs. When the young fool discovers this trick, the prankster yells Poisson d'Avril!

Today Americans play small tricks on friends and strangers alike on the first of April. One common trick on April Fool's Day, or All Fool's Day, is pointing down to a friend's shoe and saying, Your shoelace is untied. School children might tell a classmate that school has been canceled. Whatever the trick, if the innocent victim falls for the joke the prankster yells, April Fool!

Most April Fool jokes are in good fun and not meant to harm anyone. The most clever April Fool joke is the one where everyone laughs, especially the person upon whom the joke is played. American humorist Mark Twainthe has siad that the first of April is the day we remember what we are the other 364 days of the year.
