Btw, isn't "pois" a French word in its plural form?

Hello ç¾Žă^{oo}

Indeed it is French. It is also Finnish and Portuguese with different definitions attached to it.

However, the definition of "POIS" in English is this:

Hawaiian fermented paste made from the pounding of tuber (âŠžěŽ-) and taro (ěŠ'é -).

I will revise if that word is not acceptable.

Cheers!

Hi Geo, guess it'd be better to replace it with another word. "Poi" with an "s" is definitely a noun in its plural form. Thank you for your attention.
