Hello ç¾Žäºº

I have made changes and replaced 'pois' with 'joss' so that the game continues.

FYI, there are certain English words in singular form ending with the letter 's'. Some of the words are 'radius' and 'fungus' etc. Of course there are also words that when you remove the letter 's', they become plural.

I have attached this link to share with you and others on the word 'pois'

Cheers.

Hi, Geo, thanks for the link.

Here's a link that I would like to share with you and others, too.
