Courtesy, that guy with the leather jeans looks kinda gay, are you suggesting anything here

I think you're the one with broad knowledge, certainly that title is too heavy for me to bear. (and I'm not talking about the animal when I say "bear" here...)

What makes you think that the guy in his leather jeans looks kind of like a gay? Maybe if you are more muscular than him, then he may be one. I am definitely not suggesting anything here; are you?

The reason why you pick on deer versus buck is evident that my knowledge is shallow and limited. Are you telling me that when you used the word â€~deerâ€™™ or is it â€œdeersâ€•, you did not imply deer as an animal?
