Hello, we are fixing some mix contents screenplays, and we need to veryfy the chinese parts and dialogue. It is a full time job as we are in a hurry. The ability to discuss the script in english is important, however we are not looking for somebody who is 100% fluent.

The job is full time and it might open to a more substantial cooperation according to the person abilities.

In particular we have the opportunity of entering pre production for one film as soon as the script is finished, and this opens additional opprouinies to anyone motivated and capable to work in a team, which will be a mix of Taiwanese and Europeans.

All films are low budget independent films, however they are quality stories for the general public. if interested please tell us about yourself, and your current schedule.
