123, of course I put the trash bin in the bathroom.

Imagine if I don't, and I have the trash bin in my bedroom, that means every time I wipe, I have to put my pants on and get out of the bathroom and throw the tissues in the trash bin in my bedroom, then come back to the bathroom again to wipe the second time and so on and so forth. Do you know how troublesome that is?

Sounds very troublesome, but are you fat? if, yes. maybe it is not troublesome for you for you could treat it as doing exercises.
