Hello 美ä[∞]

Your remarks take me back to lesson one. Please correct me where I go wrong.

Kuròto written in kanji ï¼^æ¼¢å-—)is å°,門家

The word $\hat{a} \in \text{cwkur} \tilde{A}^2 \text{to} \hat{a} \in \text{embraces}$ the $\hat{a} \in \text{cchoon} \hat{a} \in \text{sound} \tilde{i}^{\prime\prime} \hat{a}^{\prime\prime} \in \hat{c} \in \hat{c}^{\prime\prime} \hat{a}^{\prime\prime} / \hat{a}^{\prime\prime} = \hat{c} \in \hat{c}^{\prime\prime} \hat{a}^{\prime\prime} + \hat{c} \in \hat{c}^{\prime\prime} \hat{a}^{\prime\prime} + \hat{c}^{\prime\prime} = \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} = \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} = \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} + \hat{c}^{\prime\prime} = \hat{c}^{\prime\prime} + \hat{c}^$

The method of transcription in Hiragana (平啇啕)is different from that of RÅ•maji. Here are some RÅ•maji examples: -

à obà san ei eigo ii oniisan ù kùki

Examples of a few exceptions are:

kòri ice or baggage onèsan elder sister òsama emperor

Some words with the 長音 sound are:

eiga movie fùtò envelope heiwa peace kòtsù traffic òkii big

This link perhaps can substantiate. http://en.wikipedia.org/wiki/Romaji

Please do not take this as ç•-é-€å¼,,æ-§. I am not your match.
