Coming Around Again by Simon Webbe

I've been sitting in the darkness But the sunlight's creeping in Now the ice is slowly melting In my soul and in my skin All the good times my friend Are coming around again Oh yeah

I've been thinking reminiscing Of better nights and better days Hiding in a refuge Of memories I've made I got a feeling within It's coming around again

CHORUS

[It's coming around again] We've been so long waiting For the all time highs We got a damn good reason To put your troubles aside And all your winter sorrows Hang'em out to dry Throw it away You gotta throw it away All the colorful days my friend Are coming around again

That's right Yeah yeah Mmm

I got someone waiting for me It's been so long since we met And I may not be your salvation but I'll offer none the less And if like me you wanna take that chance It's coming around again Oh yeah

CHORUS

Yeah yeah Mmm

I can feel a change of fortune No more riding on my love Feel the weight is off my shoulders As my feet become unstuck And all the good times on which we do depend It's coming around again

CHORUS

Oh the sunshine (it's coming around again) Oh the good wine (it's coming around again) Oh the old times (it's coming around again) Yeah the fin life (it's coming around again)
