Hi Geo,

Right, Hugz is a trade mark, but it is also used to represent those cards that hug.

e.g.

Now when you know someone who needs a hug, you can send them one of these! Please feel free send a **hugz** to someone who needs one. You can either save the image to your computer & email it to them (with the code) or send them here to pick out their own. Let them know that you care. Send someone a **hugz** today.

Many more examples can be found if you make a web search with the key "a hugz".
