Hi Geo,

Though as the name of a game, 'pogs' carries no other meaning in the game than the plural of 'pog'. We'd better not allow this word, or those words like *pens*, *pigs*, *dogs*, *cats*,...etc. will become acceptable if they happen to be the titles of books or articles. We've just come out of the similar discussion about a recent entry of Futari's.

Would you choose another word? How about 'dogy'?

Cheers!
