Hi Glot

Ha! I must be blind not to notice the breve accent on the word 'buÅja'. The word has now been replaced. I'd tried to use a word such that your word 'musa' can follow, but I failed. So could you please choose a replacement word. My apologies.

Cheers

Hi Geo,

Thanks for your replacement, however, according to your provided link Buta is the name of an evil demon in Indonesian mythology, and its full name is Buta Cakil. I'm afraid that it does not conform to the rules. You may need to make another replacement.

Cheers!
