In the past couple weeks, I consulted grammar books on hand and searched online for Tag Question repeatedly. Unluckily, I have never seen any Tag Question is similar to the sentence pattern.

Here is my two cents:

4. Let me do it myself, will you?
5. Let us do what we want, will you?
7. Let's not go to the park, all right/ O.K.?
8. Let's not watch TV, all right/ O.K.?
9. Have a cup of tea, won't you?
