How do we say 節能減碳 in English?

Can we say "energy saving and carbon reduction"?

Thanks!

Hi, Alexia,

Yes, you're right. You can say "energy saving and carbon reduction".

However, you made an error in a Chinese character. Try 碳 instead of 炭.

Hi, brother glot! ^^

Long time no see! How have you been?

Thank you for the reply! I didn't notice I made an error in a Chinese character. Happy mid autumn Festival!
