that's really amazing, my eyes open wide, but one question about the Declaration of Independence: didnt its author Thomas Jefferson sign at the first time?

and seems u didnt give us the best story on purpose when u mentioned "sleep tight" and "honeymoon", so here is the make-up.

Hereâ€™s the most ultimately interesting one...

In ancient England a person could not have sex unless he had consent of the King (unless he were in the Royal Family). When anyone wanted to have a baby, they got the consent of the King and the King gave them a placard that they hung on their door while they were having sex. The placard had F. U.C. K. on it (Fornication Under Consent of the King).

Now you guys know what futari forgot to tell us.
