Ha Ha! Neo

The project is 'kachang puteh' to you lah ...

Anyway, I've got the breakdown figures; but when I attempt to post the spreadsheet here, it gives me a garbled text.

Tim, is there a way out? Please advise.

If it's a simple spreadsheet, you can just export it as an html file. If it's more complicated, you can only send it to me and I'll store it on the server and make a link for you.

Tim
