thanks for the warning, futari. but somehow i wish the virus is ur post come attack my pc, then i could have adequate grounds to buy a new one and kick out this broken shit.

Well Rony, that had once been my lame excuse, too.

Please don't feel being tricked. (I did mention the word "Snopes", right?) Anyway, precaution is, forever, better than cure, and one has to be on the alert always, especially when surfing the hoax-filled internet.

Regards.
