I dont think there are right or wrong answers to the second and the third questions. Who defines "Logical" for your answers? YOU
you are not learning a L2 well enough
cos you havent met a good teacher, or the teacher is not using a good teaching method
you dont study hard enough (including listening writing speaking exercises)and you dont pay attention to the teacher in the class
hahahaha
and you dont have the language environment to help you to review or use the language in real life situation
errrrr I think I have talked too much
then I'll skip question No.3
