To 123,

We all know the love is the thing between two person, she and he, when both of them love each other, anything seems all OK. Also we must cherish the person you love. But one question I'd ask you is: when he or she think you can't give the thing she / he wants, and the realism is so crude that she / he must give up this love. Do you think this is the real love? Love is romantic but the life is life. One opinion I agree is: choose her / him, treat her / him by your heart.

Hope all of you can have real love!
