I hope that everyone will love sharing music with each other. Music does soothe the savage beast in all of us and can bring happiness, laughter, smiles, relaxation and sometimes even tears.

I do not know much about music, but I do know what type of music I do like, and what can affect my heart. I am sure that with everyone's help, this will be a great place for everyone to just relax and discuss music and share their feelings and thoughts about the music they like and enjoy.
