Mr Glotynn and Geoette, Sirs.

Thank you very much for taking precious time to answer my question.

The International Trade question was put to me by my cousin in Western Australia. She will also be pursuing a course in economics at the Curtin Business School, a division of Curtin University of Technology. I have since relayed to her what you gentlemen have said about the question and am taking the easy way out. I apologize if I had troubled the both of you.

Mr Geoette, you must be a proud father to have a son whom I think will be very successful in life. Is he continuing with his doctorate? Once again, my heartiest congratulations. By the way, is it convenient for you to reveal your profession?

Thank you once again, gentlemen.

Best regards.
