-Paragraph-

In conclusion, in order to keep up with the times, English is very important in a career. I think I can make use of English to (advance my advantage) for my future career. Besides, I can (most close) to the whole world in the future. I wish to use what (I learned) for my future career and to strengthen my competitive ability with others.

-Sentence-

1. Therefore, English can help me (make more competitive) in my future career.
2. Due to the trend of internationalization now, (and the second language has become a necessary ability in life).

that's my teacher pointed out my error ( )in my homework, has anybody can correct it? Thanks ...
